Notes to the Financial Statements

For the Year Ended 31 March 2015

1 Statement of Significant Accounting Policies

The financial statements are for Surf Aid International Australia Limited as an individual entity, incorporated and domiciled in Australia. Surf Aid International Australia Limited is a company limited by guarantee.

Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Australian Charities and Not-for-profits Commission Act 2012*. The company is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless otherwise stated.

The financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

The financial statements were authorised for issue on the dates they were signed by the directors of the company.

Accounting Policies

(a) Revenue

Grant revenue is recognised as income when the company obtains control of the grant and it is probable that the economic benefits gained from the grant will flow to the company and the amount of the grant can be measured reliably.

If conditions are attached to the grant which must be satisfied before it is eligible to receive the contribution, the recognition of the grant as revenue will be deferred until those conditions are satisfied.

Donations and bequests are recognised as revenue when received, unless they are designated for a specific purpose. They are then recorded on the statement of financial position as a liability until they meet that purpose.

Interest revenue is recognised using the effective interest rate method, which for floating rate financial assets is the rate inherent in the instrument.

Revenue from the sale of goods or rendering of a service is recognised upon the delivery of the goods or service to the customers.

All revenue is stated net of the amount of goods and services tax (GST).

(b) Plant and Equipment

Each class of plant and equipment is carried at cost or fair value as indicated, less, where applicable, accumulated depreciation and impairment losses. Plant and equipment are measured on the cost basis less depreciation and impairment losses.
